Professional Summary

Aspiring Python Developer currently pursuing Master of Computer Applications with a strong interest in Data Science and Analytics. Experienced in developing academic and project-based applications that involve data processing, predictive modeling, and full-stack implementation. Built practical solutions that demonstrate the ability to translate theoretical concepts into functional software systems. Possess a solid understanding of software development principles, structured problem-solving, and efficient application design. Committed to continuous learning and eager to contribute to real-world, data-driven projects in a professional environment.

Education

Master of Computer Applications (MCA) Mangalam College of Engineering, Ettumanoor	2024 – pursuing
Bachelor of Computer Applications (BCA) PG Radhakrishnan Memorial Sree Narayana College, Channanikadu	2021 – 2024

Internship

Cyber Security Intern <i>Alpha Innovation Private Limited</i>	Jan 2026 – Mar 2026
- Gaining hands-on exposure to cybersecurity fundamentals, cyber threats, and basic defensive techniques. - Assisting in security analysis and learning industry best practices in information security.	

Projects

Smart Blood Report Analyzer & Disease Predictor - Developed a Python-based machine learning application to analyze blood reports using OCR technology. - Extracted medical parameters from PDF and image-based reports. - Built predictive models to identify diseases such as anemia and leukemia. - Automated health analysis, reducing manual interpretation time. Technologies: Python, Machine Learning, OCR, Data Processing
EV Charging Station Locator - Developed a web application to locate nearby EV charging stations with real-time availability and pricing details. - Displayed connector information to improve accessibility and user convenience. Technologies: HTML, CSS, JavaScript, Node.js, Database Integration
VKART – Online Grocery Web Application - Built an online grocery shopping platform with product listing, cart management, and order placement features. - Enabled home delivery with clear pricing and product details for a seamless user experience. Technologies: HTML, CSS, JavaScript, PHP, MySQL

Technical Skills

Programming Languages: Python, Java , C
Web Technologies: HTML, CSS, JavaScript, Node.js, PHP
Data & Analytics: Power BI, Data Visualization, Data Analysis
Databases: MySQL, MongoDB
Version Control: Git, GitHub

Soft Skills

Problem Solving | Analytical Thinking | Team Collaboration | Time Management | Continuous Learning
